TF1517 Single Disc Scrubber

TVX TF1517 multi-functional single disc scrubber, professional commercial cleaning equipment offering cleaning solutions such as basic maintenance, renovation, waxing, polishing for various floors such as marble, granite and ceramic tile etc. as well as carpet cleaning.

- Featured with the die-casting aluminum technology, the chassis is easy to clean and enjoys excellent durability and effective corrosion resistance
- Double capacitor and high torque motor ensure strong power and effective motor power
- When the machine is transported or stored, the brush disc can be placed on the top holder for fast storage
- Adjustable from multiple angles, the control handle is suitable for operators with different heights and operating habits
- The handle is easy to operate and can be cleaned by simply pressing the switch
- Supporting carpet cleaning when assembled with foamer

Simple to operate

- Cable hanging handle is provided for convenient storage
- The machine can be started from both side with dual power switch handle
- Simple electrical design, convenient maintenance and effective saving of maintenance cost
- The wear-resistant silent tail wheel ensures stability and smoothness during towing

More secure

- Fully enclosed anti-collision adhesive strips to effectively protect the machine and surrounding objects
- Built-in safety switch to prevent accidental start
- Aviation aluminum steel pipe treated with surface sand silver oxidation offers effective corrosion resistance

More Efficient

- 15m power cord offers wider working range

Accessories

Parameters

TF1517 Single Disc Scrubber							
Voltage	Power	Rotating speed	Chassis diameter	Noise	Weight	Package size	Cable length
110V/220V	1100W	174/144rpm	17"	53dB	45Kg	1110×540×460mm	15m

Applicable Floors

TF1517P Floor Polisher

TVX TF1517P heavy duty polisher, professional commercial cleaning equipment with the enhanced ground pressure. From the counterweight block, it offers polishing and renovation solutions for various flat stone floors.

- Featured with the die-casting aluminum technology, the chassis is easy to clean and enjoys excellent durability and effective corrosion resistance
- Double capacitor and high torque motor ensure strong power and effective motor power
- According to different working conditions, the counterweight can be added to increase the pressure
- When the machine is transported or stored, the brush disc can be placed on the top holder for fast storage
- Adjustable from multiple angles, the control handle is suitable for operators with different heights and operating habits
- The handle is easy to operate and can be cleaned by simply pressing the switch

Accessories

						
Standard: 17" pad holder	Standard: counter-balancing weight	Optional: 17" brush disc	Optional: water tank assembly	Optional: carpet brush	Optional: scouring pad	Optional: foam maker

Parameters

TF1517P Floor Polisher							
Voltage	Power	Rotating speed	Chassis diameter	Noise	Weight	Package size	Cable length
110V/220V	1100W	174/144rpm	430mm	52dB	45Kg	1110×540×460mm	15m

Applicable Floors

Simple to operate

- Cable hanging handle is provided for convenient storage
- The machine can be started from both side with dual power switch handle
- Simple electrical design, convenient maintenance and effective saving of maintenance cost
- The wear-resistant silent tail wheel ensures stability and smoothness during towing

More secure

- Fully enclosed anti-collision adhesive strips to effectively protect the machine and surrounding objects
- Built-in safety switch to prevent accidental start
- Aviation aluminum steel pipe treated with surface sand silver oxidation offers effective corrosion resistance

More Efficient

- 15M power cord offers wider working range
- External counterweight block can be used for crystal surface treatment, renovation and deep cleaning after weighting

TF1517R Vibrator

As a multi-functional and easy-to-control floor scrubber with new concept, it is easy to operate with higher cleaning efficiency whose brush disc fully fits with the floor through eccentric design; Suitable for cleaning moderately or severely polluted areas.

- Fixed rail mobile design provides better cleaning results compared with conventional single disc scrubber, especially for heavy duty operations
- Shock absorption eccentric design enables easy operation, thus ensuring cleaning effect while reducing energy consumption
- The brush disc evenly distributes the pressure and works while fitting to the ground, which improves the cleaning efficiency
- The base can be turned up to increase the pressure on the ground, thus making the operation more flexible and convenient
- Adjustable from multiple angles, the control handle is suitable for operators with different heights and operating habits
- The handle is easy to operate and can be cleaned by simply pressing the switch

Simple to operate

- Cable hanging handle is provided for convenient storage
- The machine can be started from both side with dual power switch handle
- Simple electrical design, convenient maintenance and effective saving of maintenance cost
- The wear-resistant silent tail wheel ensures stability and smoothness during towing
- Shock absorption eccentric design makes it easier for operation

More secure

- Built-in safety switch to prevent accidental start
- Aviation aluminum steel pipe treated with surface sand silver oxidation offers effective corrosion resistance

More Efficient

- 15M power cord offers wider working range

Accessories

Standard: 17" pad holder

Standard: water tank assembly

Optional: 17" brush disc

Optional: scouring pad

Parameters

TF1517R Vibrator							
Voltage	Power	Rotating speed	Chassis diameter	Noise	Weight	Package size	Cable length
110V/220V	1100W	1740/1440rpm	17"	58dB	51Kg	1110×540×460mm	15m

Applicable Floors

TF1517S Flat-grinding Machine

TVX TF1517S is a new concept flat-grinding machine. It is easy to operate with higher cleaning efficiency whose brush disc fully fits with the floor through eccentric design; The square brush disc is more suitable for corner cleaning, including the seriously contaminated areas.

- Double capacitor and high torque motor ensure strong power
- Right-angled edges perfectly fit to the corners, thus making cleaning more convenient
- Supporting functions of quick scrubbing and polishing thanks to the high-speed rotation and eccentric design
- The brush disc evenly distributes the pressure and works while fitting to the ground, which improves the cleaning efficiency
- Adjustable from multiple angles, the control handle is suitable for operators with different heights and operating habits
- The handle is easy to operate and can be cleaned by simply pressing the switch

Accessories

Standard: pad holder

Optional: scouring pad

Applicable Floors

Parameters

TF1517S Flat-grinding Machine							
Voltage	Power	Rotating speed	Chassis diameter	Noise	Weight	Package size	Cable length
110V/220V	1100W	1740/1440rpm	14×20"	65dB	51Kg	1105×600×450mm	15m

Simple to operate

- Cable hanging handle is provided for convenient storage
- The machine can be started from both side with dual power switch handle
- Simple electrical design, convenient maintenance and effective saving of maintenance cost
- The wear-resistant silent tail wheel ensures stability and smoothness during towing
- Shock absorption eccentric design makes it easier for operation

More secure

- Built-in safety switch to prevent accidental start
- Aviation aluminum steel pipe treated with surface sand silver oxidation offers effective corrosion resistance
- Square chassis design for safer corner cleaning

More Efficient

- 15M power cord offers wider working range

TB1520 Polisher

TVX TB1520 polisher, professional commercial cleaning equipment. We provide you with various cleaning solutions such as stone crystal surface maintenance, floor waxing, waxing and polishing, etc.

- Double capacitor and high torque motor ensure strong power
- The gas spring brush applies constant pressure on the ground and is easy to use
- High polishing speed of 1,200 revolutions per minute, offering outstanding polishing effect
- Integrated wheel structure provides stable direction and easy operation without deviation
- The cleaning pad is firmly centered and can be cleaned to the edges
- Adjustable from multiple angles, the control handle is suitable for operators with different heights and operating habits
- The handle is easy to operate and can be cleaned by simply pressing the switch

Simple to operate

- Cable hanging handle is provided for convenient storage
- The machine can be started from both side with dual power switch handle
- Simple electrical design, convenient maintenance and effective saving of maintenance cost
- The wear-resistant silent tail wheel ensures stability and smoothness during towing

More secure

- Built-in safety switch to prevent accidental start
- Aviation aluminum steel pipe treated with surface sand silver oxidation offers effective corrosion resistance

More Efficient

- High-speed polishing makes the ground shiny and bright as new
- 15M power cord offers wider working range

Accessories

Standard: 19" pad holder

Optional: scouring pad

Applicable Floors

Marble Granite Ceramic tile

Parameters

TB1520 Polisher							
Voltage	Power	Rotating speed	Chassis diameter	Noise	Weight	Package size	Cable length
110V/220V	1100W	1200/1000rpm	19"	65dB	47Kg	1110×640×450mm	15m
